

ENVIRONMENTAL POLICY

Silverstrand strives for environmental excellence in all our activities and as part of our commitment to the environment we will:

- Maintain an Environmental Management System to ISO 14001:2015.
- Take accountability for the effectiveness of our Environmental Management System and Environmental performance.
- Promote and continuously improve our Environmental Management System.
- Provide adequate resources for Environmental Management.
- Minimise pollution and other contaminants from our works by developing Environmental Management Plans, Erosion and Sediment Control Plans and Work Methods that reduce the risk of environmental damage.
- Develop Environmental Objectives and Targets and review our performance against these objectives and targets.
- Communicate our Environmental Policy and Objectives and Targets to all employees and subcontractors.
- Contribute to sustainability by offering eco-conscious products and work methods to our clients where possible.
- Reclaim and recycle materials where possible.
- Maintain awareness of environmental-related legislation and regulations and ensure our compliance as necessary.
- Train our employees and subcontractors on environmental awareness.

Environmental compliance will be regularly reviewed. We aim to prevent problems from occurring and promote continuous improvement, using lessons learnt on future projects.
